Dear FCC:

Any agency, be it Federal or Private, is always trying to get extra bucks on the backs of the poor people. We have this trackfone for emergency needs only. We can afford the service now, but you add more cost and you will hurt more people on fixed income. The security of the phone is the reason we have it. I do not need more air time or the added cost of it. Leave us poor people alone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kenneth O McAdoo
